

Agricultural Services

Since 1994, the Kennebecasis Watershed Restoration Committee (KWRC) has been operating as a non-profit organization with a mission to restore the Kennebecasis Watershed to a sustainable ecosystem. Over the years, the KWRC has partnered with agricultural producers to help farmers protect and enhance the environment by implementing the following:

- Streambank stabilization
- Stabilized fording sites
- Alternative watering systems
- Culvert and bridge installations
- Riparian livestock fencing
- Riparian tree planting
- Riparian buffers
- Habitat enhancements

If you have any questions about how the KWRC can help your farm, please do not hesitate to reach out:

- ☎ 506-433-4394
- ✉ agriculture@kennebecasisriver.org
- 📍 5 Moffett Avenue, Unit E, Sussex, NB
